TERMS OF THE DAILY DEMOCRAT TO THE COUNTRY.

To our Country Patrons

Please to register your letters containing re mittances, as we hold ourselves responsible for all losses to us when letters are registered. We are not responsible for losses in the malis, should they ccur, unless letters are registered.

The constitutional smendment has useed Congress after a fashion, not by a two hlids vote of that body, but by two-thirds of the members elected. The dominant parly deem it all right, and that the work is done. Three-fourths of the Stales are to ratify it, of onise. It is provided that Congress shall have power to enforce this new article to be put into the Constitution by appropriate legslatior. This places all State laws respecting olored people under the control of Congress. illi this is only the beginning of progress. The negro now must vote, hold office, give testimony in court, be in all respects equal to a white man. He is, in fact, to be better, nasmuch as he is to be under the epecial care of Congress, and not subject to State laws or constitutions, as white men are. Social quality, as well as political, is more than

nted at. It is obvious, then, that the egitation of slavery is not done with. There remains. as we have said, the question of race, nore unmanagable than the question of lavery itself. The present progress is not soing to sit p with the nominal emancipation of claves. Samuer's introduction of a negro ttorney to the bar of the Supreme Court is an lustration of what is coming. There are the eeds here of numerous insurrections and so-

isi rebelilors. Now, we can only say, if the Abolitionists re right, then these sdvance movements are ight. They are logical accessities of their oremises. If the negro be a self enstaining ace, able to do better for themselves than hey can do in a state of servitude, then they ought to be free; not only free, they ought also to be placed where they will have all the ncentives of free mer. They must not be chained down by political disabilities.

The status of the negro in the South is deended on the ground that the race is not selfustaining; on the same ground that disabiliies are imposed on minors until they come to ears of discretion. The assumption is that the regro is an infantile race, incapable of the duties and responsibilities of free men; that their condition of subordination to the white race is the best for them, as well as for the white race. If this be true, there is no wrong in the slavery of this r.co. The arrangement is the best that could be made. The evila necled with the system can be remedied without destroying what is the growth of ages and modified by time.

If this view ci the race be an error, and the Abolitionists are right, then emancipation is a Abolitionists are right, then emancipation is a fully, regardless of expense; but, then, if the Abolitionists are correct, it will not do to stop at mere emancipation. If the race are capable of freedom, they are cattled to the same rights as other people. It is impossible to justify general emancipation and stop there, leaving the negrous he is in the free States, leaving the negrous he is in the free States, generally with no rights that the white man is ound to respect. The radicals are consistent n their wrong-headeduces, and entitled to respect for that. They go whither their theory leads. As they run no hozerds themselves, thee nothing if their theory proves absurd in practice, we need not expect them to be cautions. If wrong, the evil consequences fail on

ther people. These Abolitionists, however, should not allow some of their representatives to behave as they do. They undertake to raise up and sk- care of these freemen. That is all inconsistent and absurd. A free people can take care of themselves. They must not be treated as children, as siaves in fact. Turn the white race loose and they will take care of themselves. They want no nursing and supervising. That would make them siaves. If you ake care of a mau, he must serve you and obey cour directions. That is a natural law that Congress can't repeal. The negroes under Government control on plantations down south are not free. The system of slavery is only changed, and changed for the worse. Why should the white man be taxed and oppressed to take care of a people fit to be free? Why should white rogues be enabled to cheat hese American citizens of African descent, by making bargains for them, taking the procee: a of their laber and pecketing it? If the Aboli ion theory is true, set the negro free-let him shift for himself as white men do. There is no harm in throwing young cucks in the water, although we would not treat young chickens that way, for they can't swim. In this sea of competition with this white race the negro, in our opinion, will perish; he can's swim. The Indian has kept out of it by instinct; but he is washed away by the tides that followed him in his retreat. He struggles hard and gets killed for his resistance. The negro will perish an easier victim to the progress of this ambi'ious, restless white man. The Abolitionists, however, don't believe it. They are filled with admiration of Sambo, and expect to make something wonderful out of him. Nothing but the experiment will satisfy them. They feel a lofty and virtuous scorn for the advocate of the system of slavery, on the ground of hnmanity. They will make attorneys, judger, electors, Congressmen, &c., out of the negro race. If their theory be correct, they are right in all this, and they will hammer away at it with as much zeal and furor as they have atsailed the system of siavery. If they are right, then the iree States must be vastly reformed. They have treated the negro upon the same principle as the South, although not the same way. The more rapidly the experiment goes on, the sooner it will be through with-the sooner the absurdity will be manifest. Those familiar with the negro race from history or experience will see the end without the experiment. Il carried ont, it will sud in the destruction of African slavery with the destruction of the whole race on this continent. Moderate counsels might save some trouble to

The faithful may now make their calculations to advance. When this trouble com-menced, he was loyal who refused to comtenance secession, who stood firmly by the Union of the States, and insisted on the Federal authority over all the States. State Constitutions and State ins itutions were not to be dislurbed. After awhile objection to anything he Government did rendered a man ens-

The Administration and its party shifted about. The emancipation of the negro and confiscation bilis became tests of loyalty. Then the negro must be armed as a soldier, and objections to that were positively disloyal. At present, we have another test still in ad-

States must be prohibited from imposing any disabilities upon the colored race. This is progress. We are aiready more than half way to the end of the theory and practice,

Several rooms in Johnson's building Springfield, Illinois, occupied by reportera of the press and others, were entered by a burglar Sunday morning at an early hour, and obbed of watches, money, &c. The reporter of the Tribune called to the thief to come back, but the latter only quickened his de- burg. back, but the latter only quickened his departure thereat. One or two of the hotela were also entered. It is stated that \$1,400 were stolen from one person in the Manning House.

The Richmond Examiner of the 14th says if Sherman takes Branchville, he cuts our great railroad artery, and General Lee will have to go and gather his supplies from other contents.

At a very fashionable Hebrew wedding in Hartford recently the bride was dressed in an elegant and expensive lilac colored moire antique dress, richly trimmed. On her head she wore a coronet of green leaves and orange flowers, falling from which was a white lace veil of delicate texture, enveloping her whole figure. One of the bridesmaids was also dressed in a very rich silver gray moire antique dress. The occasion was of much interest.

ATTEMPTED SUICIDE -The Worcester Palladium says George L. Mowry, of Smithfield, R.I., who was convicted of highway robbery at the late term of the Supreme Court in that city, attempted to kill himself in juli at an early hour Monday morning. By some means he got a small fragment of glass, with which he cut a vein in his arm, from which blood flowed freely until he fainted away. We are informed that the report of the

destruction of the town of Pascagoula by fire, on the night of the 31st ultimo, is whoily untrue. The story probably originated in the fact that a portion of the new landing constructed by Gen. Granger accidentally caught fire, but the wharf was only partially consumed.

Advices from Gen. Shermen state that his left wing was, on Mondey, 17 miles on hof Branchville and within 50 miles of Columbia, the capusi, while his right was in front of the city of Charlestop, only two miles distant, and threatening it. On the next day, Tuesday list, it was indicated by the Richmond papera that his cavalry had reached the Northeastern rollrond, and that severed the last remaining link between Charleston and the rebeinghist. His troops were believed to be also in the vicinity of Florence.

This is the point of convergence of the relieved to munuclealing between Georgia, South Carolina and Virgins, and in which towns were recently co fined large numbers of captured Union soldiers. Rabel papers admit that there was nothing to step Sherman's army, and expect that the national flag will soon be fanting over Charleston, Augusta, Columbia, and Raleigh.

Death of Col. James S. Wallace.

It becomes our paintal duly this morning t) announce the death of Col. James 8. Wallace, which sad event occurred at ten minutes past 1 o'clock this morning. He had been slok for some time with paralysis of the brain. For a number of years Col Weilace was onnected with the 1 ress of Boston, New York and Philadelphis; but for the last six or s ven years he had been connected with the Journal in this city.

The Colonel was a writer of ability and his death will be a sad loss to the fraternity. He was a man of an amicable and gentle disposition, kind hearted, and by his courteons and gentleman'y bearing had made hosts of triends who will mourn his death.

MESSES. HART & CO, NEW YORK .- We direct the attention of our readers to the card of Mesers. Hart & Co, maunfacturers of clothing, at Nos. 70 and 72 Leonard street, New York c.ly. These gentlemen are well known to the trade in Louisville, and we invite the special attention of dealers to their ouse. Being entirely familiar with the wants of the Western and Southern trade, they are especially prepared to fill all orders. The gentlemen are tavorably known bere, and me charts vie tirg the East should not fail to look through their establishment before jurcharing eleewhere.

If Dick Taylor and Forrest, however, should conclude to take the offensive ford was from the heart; in truth and in fact, 'tis and "move on any of our works," General Thomas will be necessarily drawn out to agh, of Wood's Thester, has volunteered for the crive him back. The movement of General A J. Smith's command down the Mississippi dver would incleate that no extensive operations are anticipated in this State. However, this move of Geu. Smith may be simply to "eili up" the remanut of Hood's army, in order to give Thomas an opportunity to demolish what remains of it. At last accounts they were sungly enscoreed in winter quarters at Tupele; but it is not reasonable to suppose

that they will remain juactive any length of ime in the present desperate condition of the Confederacy. Taylor and Forrest are bold commanders, and they may undertake a desperate move on some place liable to sur-prise, if for nothing more than retrieving their fortunes in the prestige of the slightest SUICIDES.

As nations are prons to commit suicide, it is not strange that individua's should occasionally tellow such as illustrians example. We are told by the hyographers of the great Napoteon that he once seriously contemplated a "Roman death" in preference to ex leou the lonely rock of St. Helena. The similarity between this ungedly city and La Belle France is well calculated to inculcate a "Parisian turn of mind," which takes him by the forelock and "shuffl soft this mortal cell" independent of opinemies and ware. Vice and virtue are closely allied here. A failure in army speculation is irretrivable ruin, and generally prives fatal to the victim, who at once commits himself to the embrace of a "Roman death," or some rich war widow. Domestic treublet, how ver, are ginerally disposed of quietly in this section. In most cases Indiana Inruishes the halm of gliead, and a divorce plaster heals the wounded hearts. The very atmosphere of Nashville is pregnant with vice, and virtue euccumbs to the ruiling fassion. I am let to the show remarks by the limentable suicide of Lieut. T. C. Call, brief mention of which was made in the papers of this city secteday. An unfaithul, wife drove him to dissipation, and finally to commit the deed which has buried his humillation. He was, but a short time ego, highly exteemed, and has served his country with honor during the war, but a short time ego, highly exteemed, and here within one month by efficers of the United States army. As nations are prone to commit suicide, li not strange that individua's should occa-Juited States army.

THE COTTON MANIA-INTERESTING DEVELOR-

The telegraph laformed us a few days ago that the Committee on Committee are holding daily sessions for the purpose of investigating the cotton question, and they are developing some rich transactions connected with the cotton trade. As thomsands of these patriots have smassed fortunes in this trade, we hope that a full exposition will be made. In connection with the above a few hints regarding cotton operations I this quarter may be in order. From what I can learn, there are upwards of two hundred persons purchasing at polets beyond libritaville with permits issued in this city, and others are reported purchasing without any permits. From this statement it would be naturally supposed that immense quantities of cotton were brought to this city, yet each is not the case. I am informed by one who "knows whereof he speaks," that less than two hundred belos have found their way to this market during the past three months. It is not owing to any scarcily of the article, for upwards of an hundred thousand bales have been purchased by those speculators, and are now lying in the enemy's lines awaiting—not transportation—but congressional or excentive legislation removing the Government per centage or tax. This cotton has been lying there for months, the owners cherishing the lord hope the an unrestricted free trade poli-The telegraph loformed us a few days ago ere for months, the owners cherishing the ord hope the an unrestricted free trade politional be adepted by the Government, in hick case they would escape the per cent, quired by the Government under existing egulations, and which they are required to tricily conform with in order to obtain a per-bit to purchase. The cotton purchased by arties having to permits is liable to confis-ation; and in fact there is little doubt but

that all this cotton lying in the enemy's lines is itable, as the purchasers have not conformed with the Government regulations, and they are thereby depriving others who would act in good tsith. Same of those who hold permiles to hring in five and ten thousand bales have not purchased five hundred, and did no expect to purchase more than a few bundre sales when they obtained their permits. those who are ambitious to embark in the cotton trade, I would state that they will "strike centon" about ten miles hepone

The business on the river is daily increasing. Every beat arriving and departing is loaded to the gurds. The backs of the Cumberland are fixed with tobacco awaiting shipmen out. The most important point, however, in con-nection with this region, is the occurrence of a shaly limestone, in scame, in the more com-pact rock. This contains petroleum, and at verious points that were examined it oezed out in drops. There were also small masses ol bitumen resulting from the evaporation of the petroleum that had passed out of the

ja24 d2m And by all Druggists. . The Horrors of Indigestion.

You complain of your stomach, nufortunate dyspep le; but ought not your stomach to complain of you Possibly the pangs you endure are simply the stomach" nethod of taking revenge upou you for meglecting and busing it. Porhaps you have never made an effort t nprove its condition, but on the other hand are contin cally cramming it with unwhotesome ant incongruou food. Have you ever tried HOSTETTER'S STOMACH BITTERS, a proper diet and regular meals? The Bit ters in a week would put your digestive apparatus h erfect order, regulate the flow of tife in accordance ith the laws of health, and produce just so much ape dent action as would be necessary for your good; and when you were once all right, judicious and regular leting, with a little of the Tonic now and then, would keep you so. If you have neglected these means of cure iou't hlame your stomach for its rebellion. It is merely nature's hiot that she wants help. If you noglect it he next thing may be Infismmation or Scirrhus Car er, or some other violent and dangerous disease There is such a thing as belog too late in these matte HOSTETTER'S BITTERS will cure Dyspepia; but Dyspecals may engeuder diseases which defy all restoratives.

The following is received through refugees from Western Texas regarding Price and Magnader's amies, is deemed reliable:

Price's command, about nine thousand strong, mostly cavalry, from which a large number of deserters are constantly arriving at the Rio Grande, and escaping North into Arransas and Missouri. Price's heardquarters are at Bonham, Texas, about forty mites south of the Red river in a fine lorsging region.

Magnader is at Camden, Arkansse, with a portion of bis command, but the main body, chiefly cavalry, are on a stealing expedition in the condition. Magnader has twenty for whom are effective.

Kirby Smith's headquaters are still at Shreveport, Louisiana. His entire strength is cellmated at thirty eight thousand, about twenty-five thousand are serviceable. Immore droves of bore featile, numbering come bundred thousand head, are roaming over the pravies of Western Texas.

The Richmond Sentinel of the 14th, in an article on the orming of slaves, sigues that the proposed measure would be of great advantage in the single items of supplies which now is a very important question with the rebel government.

The E quirer says the recent rise in rebel appear was caused by the Secretary of the reasury throwing a quantity of gold on the narket. It args the destruction of the present currecy and reduction of the rebel debt of a gold basis.

The clerks in the departments of the rebel government appeal to the Seaster to be rebel.

The clerks in the departments of the rebel government appeal to the Senate to increase their pay. Under the present compensation they can barely support themselves.

The Sentinel says mass meetings have been called at Petersburg and Lynchburg to express the views of the people on the degrading terms terms tendered by President Lincoln.

All on-exchanges speak with but one voice of the Fortress Monroe negotiation and the chries it has disclosed to us sil except the Raleigh Progress and Standard, which still hang out the white flug for currender.

The Augusta Chronicle will doubtless also take the same ground,

The Enquirer says while the blockade is effective against England and France, is it open to the Yankeer? and says the effect of trading permits would at points in our possession enable us to do all the trading to the exclusion of foreign nations. The rebels are supplied by the Yankees with articles of commerce they would prefer to purch-see issewhere, but take from the Yankees rather than do without them.

Shermon's army entered this State with threats, openly and defiantly made, of the vengance which should mark his march. South Carolinians are not to be intimidated by the minions of brutes, and we are mistaken if South Carolinia has forgotten how to treat the insolence of such men.

The Tribunc has the following extracts from the Richmond Examiner of the 15th:

According to official advices last received from the War Department Sherman was moving on the upper branches of the Edisto, with the Intention of thaking Branchville and striking the railroad at Columbis north of its junction with the South Carolina railroad,

It is concluded that Beauregard has fallen back from Branchville to take up a new line to cover Columbia, and one better calculated for defensive purposes. The opinion in official quarters is, that a bettle is imminent. Sherman's army entered this State with

selection, and with an adequate force. The general situation is encouraging for us. It was correctly reported here yesterday that a column of the enemy was moving on Angusta. The War Department has no confirmation.

The Enquirer says the continued absence of official news from the South leaves open the field for any extent of rumord conjecture us. Now that it is well known that Sherman is actively initiating a campaign, his movements for Branchville, and telms upon Angusta and Columbia, and his demonstration in force on James Island below Charleston, form a basis for some very entertaining military criticisms and anticipatious.

That Bracehville and Charleston are the designs of Sheaman, there can be little doubt, but whether he will get one or the other appears by no means imminent.

Rumor says Branchville is evacuated and the enemy, having crossed the Edisto twenty miles above that place, are marching upon Charleston. There is no official confirmation

The Tribune's army of the James special The Tribnne's army of the James special mentions a statement of descriers that the rebels have new ram named Jeff. Davis nearly completed. Descriers say the rams will soon make another raid down the river.
